MILITIA CHARGES WOMEN RIOTERS

Thirty-three Arrests Made After Attack on Men Who Take Strikers' Jobs.

SPIES STIR SHOE STRIKE

Industrial Troubles Grow in Several Massachusetts Towns . -Conciliators at Work.

EAST HAMPTON, Mass., July 17 .- Riot-

ing by a crowd of Polish women occurred this morning and at noon at the plant of the West Boylston Manufacturing Company when men employed to take the place of the striking weavers went to work. The police force was unable to cope with the disorder and K Company, Twentieth Regiment, State Guard, Capt. W. C. Tanner, was called out. The guardsmen were compelled to charge the crowd with fixed bayonets. One woman was hurt. Thirty-three women were placed under arrest. The disorder began at 7 o'clock when women gathered near the factory and assailed the workers with pepper, eggs. snuff, sticks, stones and ammonia. While the attack was going on the strikers, numbering several hundred stood by but took no part in the trouble The police force numbers but two offi-

BROCKTON, Mass. July 17 .- Convinced that spies have been at work in Brock-ton shoe factories stirring the workers into quitting work on army shoes, Federal agents arrived here to-day to in-vestigate.

Orders for millions of pairs of army

shoes for the Government are tied up by the sudden walkout of the shoe cutters, who demand an increase from \$25.50 to \$37.50 a week. The strike is spreading to surrounding towns.

It is the first strike in a Beockton shoe factory for nearly twenty years and was called without the sanction of the Boot and Shoe Workers Union, of which the Cutters Union has long been a member. John F. Tobin, president of the former, who arrived here to-day says the cutters by their walkout auto-matically cut themselves off from the parent organization. He has been urging the more than 2,000 strikers to return

to their work, making his appeal or patriotic grounds. pany, which has stopped work on important war contracts. The strikers an-nounced their willingness to submit their grievances to the National War Labor Board for adjustment.

75,000 Tons Could Be Saved Year ly in State, Says Bureau. ALBANY, July 17 -- Water consumer in nineteen New York State cities are responsible for the waste of at least 75, 609 tons of coal a year used to nump the water, according to a report made public he New York State Bureau Municipal Information. This report is the result of a study of water waste and leakage in New York State cities made for the State Conference of Mayors. "This amount of coal," says W P Capes, director of the bureau, "is suffi-cient to heat 7,500 average American

homes this winter. It would keep 25,000 persons warm. The study of the data we have ceived from the cities shows conclusively that effective means to reduce waste and leakage of water should be taker more than one-half the cities of State, and that in at least one-fourth the municipalities a reduction in the power consumption will effect a saving of thou sands of tons of coal."

Tank Camp Explosion Kills One Washington, July 17.—Word was re-ceived here to-day that Private William T. Lusby of Washington was killed and three other soldiers were wounded terday by a premature explosion of tank training camp in Gettysburg, I'a.
